Argo Project Construction Update (BOE)

Open Space Opportunities (Council Office)

General Discussion (All Participants)

ARGO PROJECT SCOPE

- The Project will treat stormwater runoff from a 2320-acre drainage area, including areas of LAX, that discharges to Dockweiler Beach with a capture capacity of 8.1 million gallons.
- Completion of the Project will help meet stormwater pollution regulations.

SCHEDULE UPDATE

- Construction Schedule:

- Construction Start: October 2018

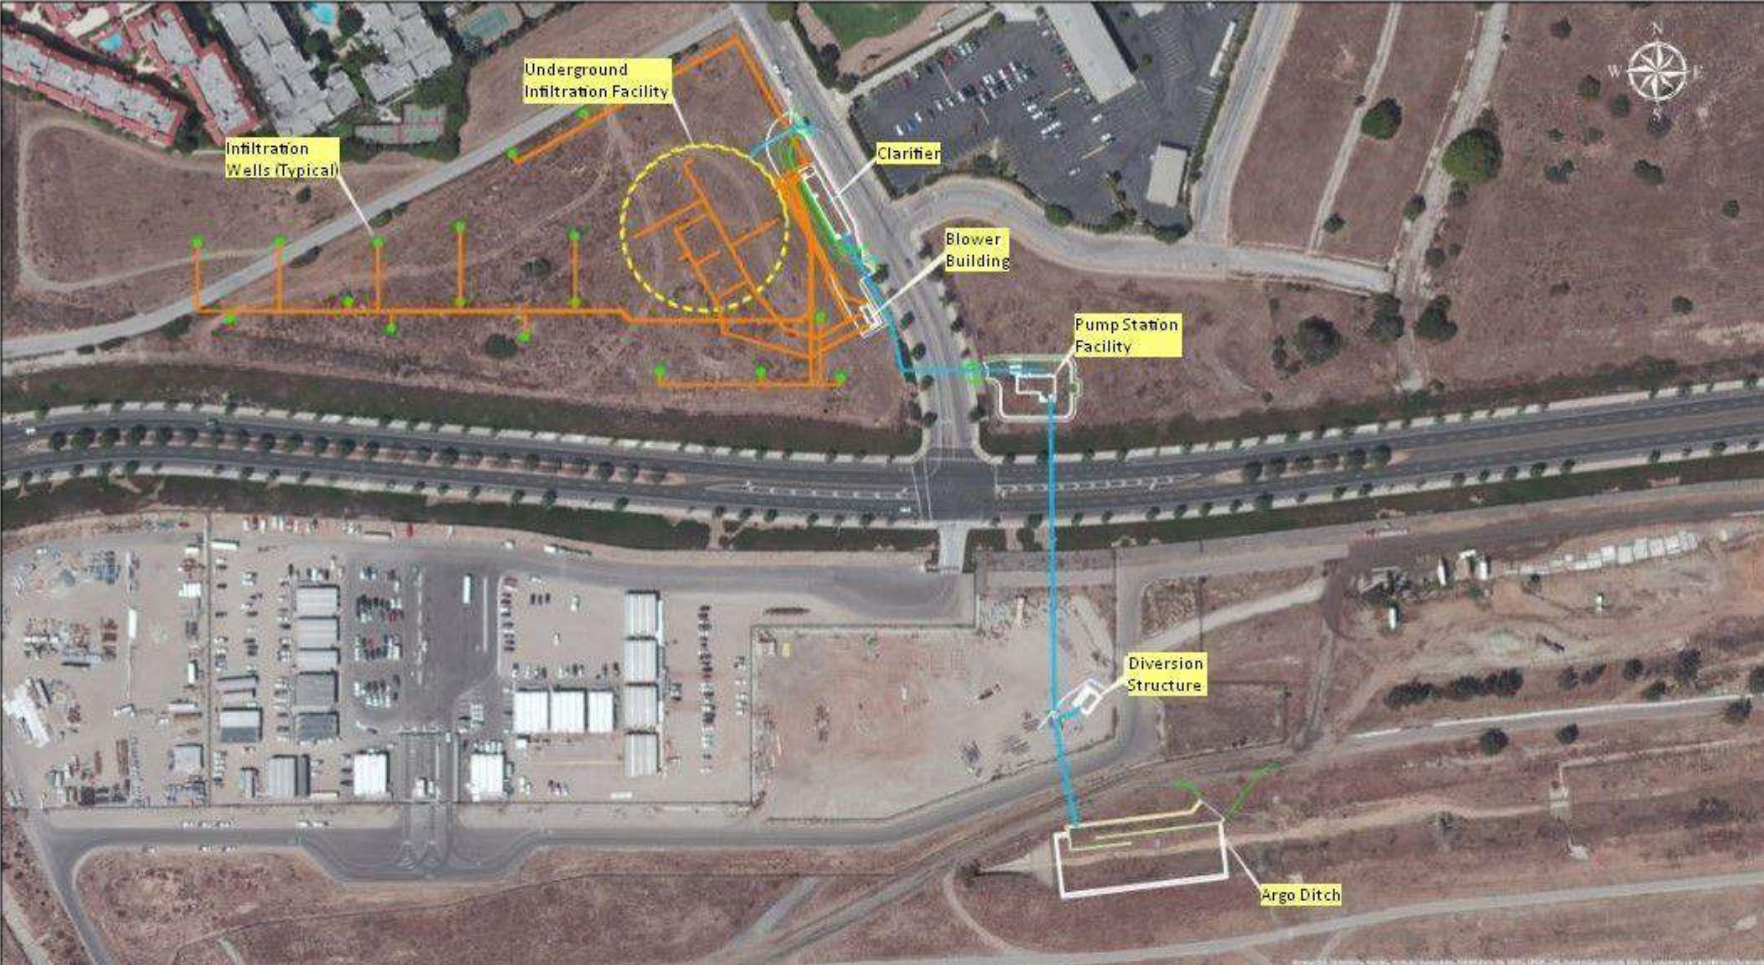

- Construction End: Winter 2020

DRAINAGE AREA

AERIAL VIEW

CONTRACTOR PARKING

HAUL ROUTE

ANTICIPATED TRAFFIC CONTROL

- Falmouth Ave: 92nd St to Jet Pet Driveway
- Street narrows from 38' to 24' (600')
- Traffic remains 1 lane in each direction
- West sidewalk will be closed
- No street parking at the narrowed street section

FINAL PROJECT RENDERING

FUTURE OPEN SPACE OPPORTUNITIES

- Council District 11 will lead a process to determine the preferred community uses for the green space in and around the Prop O site.
- This will include soliciting feedback on the site. Work has already begun on this initiative. Reach out to Geoff Thompson, LAX Liaison, for further detail.
