Is a three day commute from Silverlake to Playa Vista doable?

I'm moving to Los Angeles and from my research it seems like the Hipster 3 areas (Los Feliz, Silverlake etc) tick all my boxes. However, I'll be working in Playa Vista and I wanted to see how doable the commute is.

I maybe able to avoid rush hour but let's assume I'll be coming to the office for 8:30 am.

How bad would the traffic be? If it's terrible what alternative neighbourhoods would you recommend that have a similar vibe (diverse, affordable and good night life brunch spots)?

My budget for an apartment is \$2.5K

I currently go into the office several days a week in the Playa Vista Area. It will be awful. There is no avoiding traffic into PV either because most of the employers like mine are still flex, morning traffic is 7a-10a and evening traffic is 3p-8p. If you end up in a place in Silverlake without parking (which is very likely), you will be completely SOL in finding a spot by the time you get home. It's just a frustration that isn't worth it.

With your budget I would suggest Mar Vista, Playa del Rey and Palms. It would most likely be an older building, but so are most places in in Silver Lake/Echo Park/Los Feliz and you have the benefit of cooler weather.

Good luck.
