BACKGROUND: In September 2025 the Community Plan Update Committee with the support of the Board released a survey designed to gather input on what the Community would like to look like moving forward. The survey was distributed via the Neighborhood Council website, two articles in the Hometown News, local social media sites, postcards distributed by stakeholders and at several Community events.

DISCUSSION: The Committee noticed the overwhelming sentiment from the survey takers on several key issues:

1. Preserving R1 zoning.
2. The need for infrastructure improvement and maintenance.
3. The need for more green/open spaces.
4. The impact of the airport on surrounding streets.

FISCAL ANALYSIS: N/A.

ATTACHMENTS: Yes

MOTION: The Committee recommends that the Board approve the transmittal of the Community survey results to CD11 and the City Planning Department.
